<b>Company Profile</b>				
<p>Novensys is a specialist that integrates only intelligent solutions for information management, provided by the best technology developers worldwide. Novensys is an expert when it comes to turning gross information into intelligent information which is useful and applicable in your business – the kind of information that reveals the guidelines and creates premises for a company's evolution. Meaning, the kind of information that helps you most when making business decisions.</p> <p>The Novensys portfolio unites intelligent solutions for business process automation, including hardware infrastructure, consumables and software platforms for Enterprise Resource Planning, Supply Chain Management, Customer Relationship Management, Business Intelligence etc.</p> <p>The Novensys offer is based on a portfolio of integrated solutions for information management and relies on the principles of complementarity and integration of the best solutions from the best developers. Novensys has turned this concept into a market success, offering its customers all the advantages of a complete and integrated end-to-end solution supplier.</p> <p>The company's activity focuses mainly on the retail, manufacturing, transportation and logistics, and utilities industries. Likewise, Novensys provides intelligent solutions for other industries in Romania: automotive engineering, financial services, banking services, constructions, government, pharma, hospitality.</p>
